

Readme for Adsense Site setup.

In order to setup your site you need to edit the file conf.php

In addition to that there are some additional files that can be changed, these will customize your site and help to make your site unique.

Must change conf.php

Conf.php holds the various config values that you need to set for your site.

```
<?
    $SiteName = "Digital Video";
    $SubTitle = "Your source of Digital Video.";
    $SiteDescription = "Articles and tips for your digital video
systems.";

    $GooglePubID      = "pub-7319479452462400";
    $GoogleChannel    = "";
    $Amazon           = "homebusinesti-20";
    $GoogleLinkColor  = "red";
    $GoogleURLColor   = "blue";

    $Keywordphrase = "digital video";

    $Name = "Eric White";

    $clickbank = "onewah";

?>
```

Fill in your google and amazon id values. You can change the header title and descriptions if you like.

Save and upload all files to the same directory.

Highly recommended changes

Leadin.php

Leadin.php is positioned on all the index pages, it is a generic overview leadin to the page and should be two to three lines.

The screenshot shows a Windows Internet Explorer browser window displaying the website 'Digital Video'. The address bar shows 'http://plr2.com/digitalvideo/'. The page features a blue header with the text 'Digital Video Your source of Digital Video.' Below the header, there is a navigation menu with links like 'Ads by Google', 'Digital Sports Video', 'DV Video Camera', 'Sony Digital', 'Sony DVD Camcorder', and 'Lighting Video'. The main content area is titled 'Digital Video' and contains a welcome message: 'Welcome to Digital Video, your source of articles and information for all things relating to Digital Video and cameras.' This message is circled in red and labeled 'Leadin.php'. Below the welcome message, there are several article teasers, including 'Express Yourself', 'Cameras & Videos - SMH', 'Digital Juice TV Online', and 'Digital Video Has Been Around'. On the right side of the page, there is a 'Menu' section with links to 'Home', 'Awesome Investment', 'Using Digital Video', 'Purchase or Rent', and 'Security'. There is also an 'Ads by Google' section with a search bar and a 'Search Amazon' button. At the bottom of the page, there is a 'digital video News' section with several news items, including 'Digital Trends acquires video game consultant (BizJournals)', 'Digital Ally Receives First Large International Order for In-Car Video Systems (The Auto Channel)', 'Digital Trends Buys Video Game Consultancy (DesignTechnica)', and 'Quincy Jones Goes Digital Starting with New Video Podcast Series (Business Wire via Yahoo! Finance)'. The browser's status bar at the bottom shows 'Internet'.

Vertads.php are shown down the right side and can be edited to show any thing you think fits with your site.

Signature.php

This file should be edited with your signature block and will appear under each article.

appropriate software programs that are available also, forgetting that will make it impossible for you to download your photographs onto your computer so that you could then edit the ones that need it. With certain types of software programs you will also be able to add background to images and prepare them for being printed out on special photo paper.
